

# NAMRATA BERA

## SOFTWARE DEVELOPER | B.TECH CSE (AI & ML) STUDENT

Namrata.kiary@gmail.com | 6294952584 | Kolkata, India | [LinkedIn](#) | [GitHub](#)

### PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science (AI & ML) student with a strong foundation in data structures, algorithms and core computer science. Proficient in Python, Java and C, with practical experience developing web applications using Flask. Interested in artificial intelligence, machine learning, software development and UI/UX design; seeking an entry-level software engineering opportunity.

### EDUCATION

#### Bachelor of Technology (B.Tech) in Computer Science & Engineering (AI & ML)

Brainware University | Kolkata, India | 2024-2028 | Current SGPA: 9.53/10

Relevant coursework: Data Structures & Algorithms, DBMS, Operating Systems, Design & Analysis of Algorithms, Computer Networks, Automata Theory, Artificial Intelligence and Machine Learning.

### TECHNICAL SKILLS

|             |                                                                                                |
|-------------|------------------------------------------------------------------------------------------------|
| Programming | Python, Java, C, SQL                                                                           |
| Web         | Flask, REST APIs, HTML, CSS                                                                    |
| Core CS     | Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Automata Theory, DAA |
| Specialized | Artificial Intelligence, Machine Learning, Scikit-learn, NLP, UI/UX                            |

### ACADEMIC PROJECTS

#### Library Management System

Technologies: Python, SQL, HTML, CSS

Developed a web application to organize book records, member information and availability, and manage issue/return transactions. Used Python and SQL for data operations and built a straightforward HTML/CSS interface.

#### Fake News Detection System

Technologies: Python, Machine Learning, NLP, Pandas, Scikit-learn, HTML, CSS

Built a text classification project that predicts whether news articles are real or fake. Applied NLP preprocessing and feature extraction and connected a supervised Scikit-learn model to a simple web interface.

### CERTIFICATION

Data Analytics - Deloitte, 2026

### LANGUAGES

English (Proficient) | Hindi (Proficient) | Bengali (Fluent)
